VTS™ Transition Curriculum

The **VTS™ Transition Curriculum** is a tool to improve the soft skills needed in today's work setting. VTS started research with the goal of producing a curriculum that meets the needs of schools, adult work facilities, and the independent work place. Soft skills are a concern for employers. Some important soft skills to emphasize are problem-solving, the ability to start work independently, to stay on task, to finish properly, to understand work rewards, to accept change, and to restart independently.

The **VTS™ Transition Curriculum** provides the tools to challenge and improve these skills. VTS™ Transition Curriculum is a great way for teachers and staff to teach students hands-on. The ability to change the schedule, manipulate the work and reward good work gives the teachers and staff the ability to challenge.

The **VTS™ Daily Schedule Board** is the center piece of the curriculum. This allows students to see the work assigned for the day so they can learn to start work independently. After completion and grading of their work, the student continues with the next scheduled work task. We have the ability to customize each curriculum we sell with the school's name, adding identifiers to names, and special order cards.

Features & Benefits

VTS™ Transition Curriculum - provides a system to challenge and improve soft skills and understand work rewards. And it's simple to use for the educators and staff of schools and adult facilities. VTS™ Transition Curriculum will instill the value of work ethic and help students to develop independence and the ability to maintain focus on work tasks.

Multi-Level Work Tasks - Level 2, 3, 4, and 5 can change with the ability of the individual. This encourages success and increases advancement by adding to a familiar job. Also, it instills the ability to accept change and develop problem solving skills.

Daily Log - tracks progress of each individual and aids in assessing trends, providing a hard copy.

VTS™ Daily Schedule Board - a customized schedule, includes names, schedule cards and numbers.

Work Rewards - payment or points the student can earn for work tasks completed. Each Work Task has a slip so the individual sees the value of their efforts. The Daily Log tracks the balance.

Transition Curriculum I \$1,675.00

- * 20 Work Tasks of your choice
- * 20 numbered totes
- * VTS Daily Schedule Board for eight names
- * Complete shelving
- * Daily log, support software and assessments

Transition Curriculum III \$2,900.00

- * All 40 Work Tasks
- * 44 numbered totes
- * VTS Daily Schedule Board for 16 names
- * Complete shelving
- * Daily log, support software and assessments

Living in the Real World

by Deanna Miner

This program is designed to assist the instructor in teaching the skills necessary to function independently in society. These lessons are geared toward the special needs learner, those for whom English is a second language and for gifted learners in elementary and middle school programs. It may be used for individuals who have a broad range of ability levels.

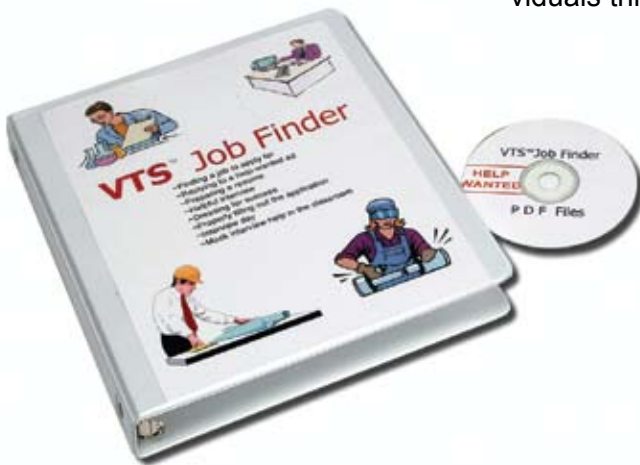

Living in the Real World
Item LRW-\$79.00

- * Teacher's manual
- * Student guidelines
- * Four student checkbooks (includes 40 checks for each student)
- * Reproducible masters for all material & flash cards

VTS™ Job Finder

Help teach students or individuals the crucial elements of finding the job that is right for them. The VTS Job Finder curriculum will take individuals through the step by step process.

VTS Job Finder
Item JF02-\$39.00

- *Finding a job to apply for
- *Replying to a help-wanted ad
- *Preparing a resume
- *Helpful interview tips
- *Dressing for success
- *Properly filling out the application
- *Interview day
- *Mock interview held in the classroom

VTS™ Work Tasks

VTS™ Work Tasks are designed for students. Each task can be manipulated to work with every level of ability. Item numbers reflect the level of difficulty (i.e. L202 - level 2). Level five tasks can be simplified for students having trouble. Level two through five tasks can be adjusted to add challenge. Each task includes instructions and suggestions on changes. Quality products are used for durability with the best colors. These products carry a one-year warranty.

Single Clothes Pin Cards

Clothes pins are attached to matching colored order card. Set includes 44 color-coded cards, 96 clothes pins, two small storage bins and large storage bin.

Item L101-\$69.00

Milk Cap Sort

Large soft plastic milk caps are sorted into color-coded bin. Set includes 100 caps in four colors, four sorting bins and large storage bin.

Item L102-\$59.00

Cap Size Sort

Plastic caps come in two colors and three sizes and can be sorted by color or size. Set includes six sorting bins and large storage bin.

Item L103-\$69.00

Number Sort

Cards numbered one through six can be interchanged with color-coded cards so that sorting can be done by number, color or both. Set includes six-section storage box and large storage bin.

Item L104-\$59.00

Large Part Sort

110 large parts are sorted into labeled bins. Two parts are similar to add more challenge, or the more difficult part can be removed and parts sorted into three bins. Set includes four sorting bins and large storage bin.

1-800-530-5715, ext. 770

VTS™ Full Use Software

VTS™ Full Use Software is designed and used with the D drive. The student simply inserts the disk and the menu will automatically start. VTS draws from the different classroom activities we offer to create this software. All titles are similar in operation for the student to quickly learn. VTS never charges a licensing fee and the disk can be copied multiple times. Teachers are encouraged to make copies for students to use at home. This is truly Full Use Software! All software requires minimum system requirements of Windows 98.

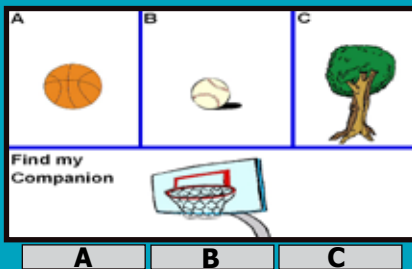

What Does Not Belong Software

Four pictures appear, the student must identify what does not belong to advance to the next screen. The 40 different screens increase in difficulty. The second test displays three items, and the student must select what does not belong to advance.

WDS1
only

\$29.00

Find My Companion Software

The student is asked to find the companion from three options. Using 80 different illustrations, the student must select the correct companion to advance.

CCS1
only

\$29.00

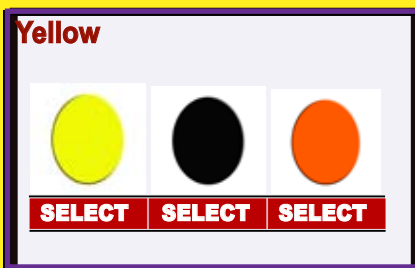

A B See Software

Using a variety of pictures, each starting with a different letter, the student selects the correct starting letter. The second option uses three pictures, the student must identify which picture matches the letter below it to advance.

ABSS
only

\$29.00

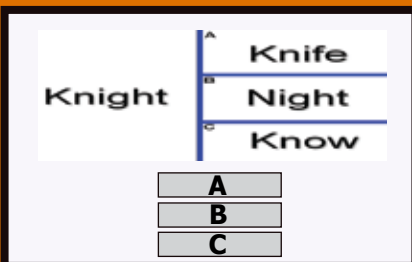

Colors & Shapes Software

Learning colors & shapes is fun! This software presents multiple choice tests of colors, shapes, and both. Next, the student must select from three colors, shapes, or both to advance.

CSSS
only

\$29.00

Sounds the Same Software

This fun tool centers around 40 sets of homonyms. A word appears in the box, the student then selects the correct homonym from the three in order to advance. Second test uses three options. The student must click on the correct homonym to advance.

WSTS
only

\$29.00

Signs

Signs software contains 80 signs—indoor, outdoor and at the work place. Two options are “name the sign,” where students match the correct sign to the word given. The second asks the student to select the correct sign from the three presented. Signs curriculum features 80 brilliantly illustrated signs, from home, work, school, and outside. This set also includes 24 worksheet lessons and match board activities.

Let's Go Shopping!

Student will go shopping with printed store boards. Tasks include pricing at the grocery store, to figuring the total of a shopping list. Simple to use, students will be able to focus on prices and how much money they have to spend.

Lets Go Shopping includes two sets of three store boards, grocery, variety and hardware. Also, 59 activity worksheets and 20 different in-class individual and group activities.

Let's Go Out to Eat!

Three menus to choose from: Charlie's Take Out, Kimberly's Deli and Sebastian's Steak House. Utilizes price matching from the printed menus. How much do I save on the combo?

This curriculum starts with the basic of reading the prices of a fast food menu, to creating a list from friends for a take out order. Three laminated menus fast food, deli, and fine dining are included.
